Report date: 24/07/2025

EXECUTIVE SUMMARY

Following his recent arrival at Sporting CP, Conrad Harder is already proving to be an exceptional talent. A product of FC Nordsjælland's academy, he had a standout breakthrough at U19 level, scoring 27 goals in 24 matches. That tally earned him his first-team debut, where he added five goals in his final six matches before completing a €19 million transfer to Sporting CP. Since arriving in Lisbon, his adaptation has been immediate, contributing 9 goal involvements in just 678 minutes in the Liga Portugal, in addition to a goal in the Champions League against Bologna and a memorable brace that sealed Rúben Amorim's farewell victory.

TECHNICAL ANALYSIS

His game is predominantly centred on his left foot, a trait that already marks him out as a reliable finisher inside the box. His playmaking facet is still developing, which is expected given his sharply defined finishing profile and short track record at first-team level.

TACTICAL ANALYSIS

His spatial awareness stands out: his ability to time his runs and attack space instinctively is notable. This quality, combined with his immediate level of production in Portugal, suggests a forward capable of adapting quickly to different attacking systems without losing his effectiveness in front of goal.

PHYSICAL AND MENTAL ASPECTS

Harder is distinguished by a relentless mentality: confidence, intensity, and a goal-oriented work ethic. His rapid adaptation to Portuguese football, including a brace in an emotionally charged fixture such as Rúben Amorim's farewell match, reflects notable mental composure for a player who is only 20 years old.
